WELCOME LETTER FROM CCPS

Dear Process Safety Professional,

On behalf of the Center for Chemical Process Safety (CCPS) of the American Institute of Chemical Engineers (AIChE), I am delighted to extend a warm welcome to all professionals and companies across the region and invite you to participate at the 3rd Middle East Process Safety Conference (CCPS-MEPSC). The event will be held at the Sheraton Dammam Hotel & Convention Centre, Dammam, Kingdom of Saudi Arabia from 25-26 October 2021. The conference days will feature plenary sessions and technical streams.

Based on the success of the flagship Global Congress on Process Safety, the CCPS-MEPSC event has been established to build a regional platform for those in the process safety network to gather together, to share our industry's chemical management practices, as well as to exchange practical experience with invited experts from AIChE. These activities bring enormous benefits to the chemical industry as a whole, and to other stakeholders.

I would like to thank you all for your support and contributions, and we do hope that you will be able to join us at our forthcoming Process Safety Conference.

Yours sincerely,

CCPS, THE GLOBAL REFERENCE FOR PROCESS SAFETY

CCPS is a not-for-profit, corporate membership organization within AIChE that identifies and addresses process safety needs within the chemical, pharmaceutical, and petroleum industries. CCPS brings together manufacturers, government agencies, consultants, academia and insurers to lead the way in improving industrial process safety.

CCPS member companies, working in project subcommittees, define and develop useful, time-tested guidelines that have practical application within industry. The project topics run the gamut of areas important to manufacturers and range from human factor issues to qualitative and quantitative risk analysis to security vulnerability to inherently safer design. With over 100 publications to date, CCPS remains at the forefront of issues relevant to industry.

PROCESS SAFETY: JOURNEY TOWARDS EXCELLENCE

Organized by AIChE's Center for Chemical Process Safety, CCPS-MEPSC is the Middle East conference for stakeholders in the process industries who recognize the business value of process safety and have committed to process safety as a strategic priority and core value in all of their operations. Focusing on operational excellence through effectively managing risk and reliability, this event aims to define, through collective industry experience, the engineering practices and leadership traits that drive industry to a zero-harm culture.

The 3rd edition will be held at the Sheraton Dammam Hotel & Convention Centre, Dammam, Kingdom of Saudi Arabia from 25-26 October 2021.
