# ABOUT THE PRE-EVENT

Organized by AIChE's Center for Chemical Process Safety, CCPS-MEPSC is the Middle East forum for stakeholders in process industries who recognize the business value of process safety in all their operations.

Focusing on operational excellence, this virtual preview aims to define, through collective industry experience, the engineering practices and leadership traits that drive the industry to a zero harm culture.

**This must-attend briefing will have process safety specialists share behind-the-scenes, truthful insights that will give leaders an insider's view and edge on making business decisions.**

## PRE-EVENT HIGHLIGHTS

Presentations from industry practitioners and process safety subject matter experts

Live Q&A

Insights from plenary speakers

Panel discussion

VIRTUAL PLATFORM

# WHO SHOULD ATTEND

- CEOs
- Technical VPs, SVPs in HSE, Security & Process Safety
- Process Safety Engineers and Leaders
- Manufacturing and Operations Leaders
- Compliance Officers & Inspectors
- Process Industry Professionals
- Managers, Scientists and Educators interested in Process Safety and Process Industry issues
- Senior Leaders whose role involves operations

**USD 99**  
for non-members

**USD 79**  
for CCPS members

**FREE**  
for undergraduates  
& graduate students

## WHY ATTEND?

- Review good practice in process safety
- Find out what's new in process safety
- Get comprehensive technical insight
- Learn from the experience of industry leaders and subject matter experts
- Round table discussion on how process safety management was affected during and post COVID-19 and consider implications post pandemic
- Understand how operational teams are coping with remote work

After almost a year in heads-down crisis mode, business executives are looking again to make the most of the future. The question of the hour is how do you maximize performance with leaner team; having to do a lot more work? **Ask operational safety leaders about their game ahead of recovery; without compromising on safety.**
