MESSAGE FROM CCPS

Shakeel Kadri

Executive Director and CEO,
Center for Chemical
Process Safety

CCPS and its 230+ global corporate members are working diligently to help eliminate process safety incidents worldwide.

CCPS has been holding the Middle East Process Safety Conference – or MEPSC – since 2015. With the continued success of increasing process safety awareness and sharing from these past events in the region, today I am very pleased to announce that the 4th Edition of MEPSC, in-person, will be held on 27 and 28 September 2022 in Dammam, Saudi Arabia. This conference is organized by CCPS and its members in the Middle East.

The theme of this conference is ‘Driving towards Process Safety Excellence’ and it is intended to focus on the key tenets of the CCPS Mission – to improve process safety knowledge, competencies, culture, collaboration and making process safety a key societal value in their organizations – to help eliminate process safety incidents.

I’m confident that this conference will provide meaningful opportunities to regional and global process safety professionals to learn best practices, network with each other and take home ideas and practical solutions to implement in their organization to Drive their organization towards Process Safety Excellence. I invite you all to join us on 27-28 September in Dammam, Saudi Arabia.

CCPS is a not-for-profit, corporate membership organization within AIChE that identifies and addresses process safety needs for a variety of facilities involved with handling, storing, using or processing, and transporting hazardous materials. CCPS brings together manufacturers, government agencies, consultants, academia and insurers to lead the way in improving industrial process safety.

AIChE is the world's leading organization for chemical engineering professionals, with over 45,000 members from over 100 countries. AIChE has the breadth of resources and expertise you need whether you are in core process industries or emerging areas, such as nanobiotechnology.

ABOUT MEPSC

Organized by AIChE's Center for Chemical Process Safety (CCPS) the Middle East Process Safety Conference (MEPSC) is the regional conference for stakeholders in process industries who recognize the business value of process safety and have committed to process safety as a strategic priority in all their operations.

Focusing on operational excellence through effectively managing risk and reliability, this event aims to define, through collective industry experience, the engineering practices and leadership traits that drive the industry to a zero-harm culture.

WHY ATTEND?

- Review good practice in process safety
- Find out what's new in process safety
- Get comprehensive technical insight
- Learn from the experience of industry leaders and subject matter experts
- Understand how operational teams are coping with remote work
